I haven't paid a lot of attention to the cable TV stations that play music only, unless I happen to stumble across them. I have thought of listening to them while I do housework, except that I don't stay in the TV room very long. Does anyone play these channels regularly or is it just an extra that's not used much?

I listen to them all the time. There are so many stations to choose from and so much variety of music. I even listen to music that I would not normally listen to.

I clean with music on, I listen to the music on the TV while I am online too.

We listen to them too. Some of the stations we don't bother with but we do listen to a lot of them. I love all the country music stations they have. There are a ton to choose from, so there is always something on that you like.
