Fred, I'd love to be there but can't. One of these times I'm going to come visit you for one of your meetings. We're close enough that it would be nice. Please post pics of the meeting and give us news of what you hear. You've been so good to do that, and it is always interesting. There's an audio club meeting in Oklahoma on September 25th too, and I'll bet the host, Link Alley, would love to have you guys there too.
