Subject: Favorite Condenser Mic for Vocals? Posted by audioaudio90 on Wed, 01 Dec 2010 15:33:18 GMT View Forum Message <> Reply to Message

What's your favorite vocal mic? I really like the Neumann U87 and wish I owned one. It sounds great with most voices, although not mine; I make a lot of mouth noises even after drinking water and that mic will pick up every single one.
