Which kinds of speakers do you prefer for your home theater - the ones that stand on the floor or ones that you mount on the wall or ceiling? We have ones mounted on the walls because we don't have a lot of floor space.

I like 3-way floorsdstanding tower speakers at about 3 foot tall.

I prefer speakers on floor stands these days. My rear speakers are still ceiling mounted, though, because of the layout of my house. Open floor plans can make things difficult.
