I want a larger flat screen TV. My room is not really huge though, it is long and narrow. Our couch is at the end of the room and the TV will be at the other end. What size do you think I can purchase?

Do you know the exact measurements of your room, that may help us decide what we think may be best for you. I have a pretty small room (I don't know the measurements, sorry) and I have a 46" TV. It almost seems a bit too big for our room, but I love it! It really depends on your taste, as well as the size of you room.

I think it's a matter of personal taste. I've seen some really huge flat screens take up a whole area of a small living room from one wall to the other. Personally I wouldn't want it so big as it is overpowering, but if that's the kind of thing you like, I say go for it.
