Subject: Solid State or Tube?

Do you prefer solid state or tube amps? Is your preference in general or just for specific situations? What are your reasons?

I like tube amps for their characteristic warmer tone.

Any time this discussion comes up, I always like to throw in this little booklet:
A Taste of Tubes

Thanks for the booklet! I haven't had a chance to read through it completely yet, but the bit I've read so far has been interesting.
