There is a game that I love to play on friv.com, called Swap Job, that has the coolest music! Sort of reminds me of a 70's disco! I don't know if I should dance or play!

I'm not actually into video games. In fact, I don't play one. ...but I love the soundtrack of Final Fantasy. The music is so orchestral.

Of course I could always say that the Final Fantasy and Chrono Cross soundtracks were my favorite, because that would be true. But I think one of the catchiest themes I ever heard came from a simple flash game.

I love Final Fantasy music, too! It's so beautiful, some of it makes me sad. Particularly the song titled, "Forever Rachel."

I also like music from newer games like Mass Effect.
