Hey everyone! Has anyone here watched the newly released I Am Number Four movie? I'm a huge fan of the book but I don't want to get disappointed since book adaptations almost never come out right. Is the movie worth the watch? How would you guys rate it?

The movie was okay. I didn't know it was based on a book when I went into the cinema. I'm not really that impressed that I'd want to read the book. I thought it was full of cliches and a bit twilight-ish.

I have never read the book, or even seen the movie. I have heard good things about it. Overall, it sounds like it would be just an "okay" type movie.
