I have a general interest in radio plays, but am having a difficult time sourcing any new ones lately. I've found some available for download on the internet, but I was wondering if anyone can recommend any good radio stations that feature current audio plays?

I love radio plays, too. I would love to find one who is looking for talent. I am not the handsomest guy, but I've been told I have a pretty nice voice....

Good for you DJ Dave and good luck.

There are only a few radio plays that I like and those are from long time ago. I hope it is alright to link the website where you have downloaded those radio plays so I could listen to them as well.
