Can you send the plans for the 4 pi. I already have the B&C DE250 driver so the kit doesn't make financial sense.

Thanks

Mike

Thanks for the plans. As I mentioned, I already have the HF driver. Would you sell me the kit without the HF driver and if so, what would be the discount off your regular price?

Thanks

Mike

We don't sell partial kits but we do sell crossovers by themselves if you want to source your drivers elsewhere.

Thanks, I may purchase the crossovers after I do some research on the speakers.

Mike

Can I please have a copy of the 4Pi plans? can you also advise price of crossovers (2) post or Fedex to Canberra, Australia? I am also interested in full kit, but suspect that cost of postage to Australia for drivers may be prohibitive.)

Cheers

Ozziozzi (Ian)

I'll send the plans right now, so check your mail.

For shipping prices and options, use the shopping cart. Place the items you want in your cart and

start the checkout process. It will ask your address and use that to calculate shipping prices by a variety of shippers/methods. It doesn't ask payment method until later, so you don;t have to purchase right away unless you want to. This was, you can use the cart as a shipping quote calculator.
