I don't know, it seems the more I read about this Michael Jackson story, the more I believe he's still alive. There are websites and forums dedicated to the hoax theory. It's provocative and interesting I think, and I hope it's true.

I highly doubt it. In order for it to be a hoax, Michael would have had to have a big change of heart about the raising of his kids. I don't think they would have put them through such an ordeal since it was obvious how much he loved them.
