Hello!

I purchased a beautiful WARDS AIRLINE console this week and am having a heck of a time tracking down a needle/stylus for the record player.

This is my first RecordPlayer/HiFi and I'm admittedly naive with the terminology... bare with me.

Anyone familiar with this type of player or have any tips on finding the right needle?

Details:

Wards Airline™ Solid State Stereo High Fidelity

Model No. GHJ 2449A

Prod. Code No. 8401

Stylus part No. 2948D

Attached are a few photos of the console:

I've checked sites like turntableneedles.com and needledoctor.com without any luck.

Thanks for any help!
