http://www.supercheapauto.com.au/carsound.html"SubwoofersThe final step to the complete system. The 10" 350 Watt subwoofer. This speaker is digital ready and has a huge 40oz magnet. It's polypropylene cone and high fidelity acoustic construction ensures outstanding frequency response. FEEL its power in YOUR vehicle." "this speaker is digital ready"---------- right.... lol.

I've always appreciated "digital ready" speaker drivers. I wouldn't want to use any that were only analog ready you know.
