I am not much of a radio person. However, every time I car pool with my friends, they are just crazy about their morning shows. Do you have a favorite morning show? Could you take or leave the radio?

I actually started to listen again to a Spanish show called "El Vacilon." I used to hate it because my husband loved it and I found the humor kind of vulgar. I just can't believe that I now love it. It makes me laugh like a maniac. I am sure people that see me driving think I am crazy.
