Hi
I finally have time for the 3pi speakers. I have 2 questions. Which horn model is required for the 3pi? Is the woofer rear mount or front or flush mounted?

regards

s

The horn is the Eminence H290. Woofer and horn can be routed flush or (front) surface mounted. Just do them both the same way - If one is routed flush, both should be routed flush.

It's the same, as long as both are routed flush or both are surface mounted. No measureable difference.
