Wayne,

I haven't been here in years, but I stumbled across the site the other day and thought I'd post just to say thanks.

Years ago I built a pair of Two Pi Towers and a pair of Four Pis. I still listen to both regularly, the former mostly with an AKSA 100W solid state amp and latter mostly with 300Bs and EL34s. They've given me a great deal of pleasure for a long time, and I figured the least I could do was to let you know how much I have enjoyed them - and to encourage any readers out there who may be on the fence to hop down and take advantage of a great product at a modest price.

Hope all is going well.

Thanks so much for your kind words.

And don't be a stranger! It's good to hear from you.
