Hi, Am I obsessive or just a pack rat? Is anyone else like this? In my listening room there are now three preamps (2 tube, 1 passive, 6 power amps (all tube), 2 turntables, a DVD/CD player, two phono preamps (1 tube 1 SS), 6 full range speakers (2 ESL 4 conventional) 1 HD TV (used as a monitor on the CD only) and a power filter. I have 3 other preamps that I now of, 2 stereo receivers, 2 HT receivers, 3 integrated amps, at least 4 DVD or CD players, 3 more turntables and so many pairs of speakers that I am unable to remember what they all are. Maybe I should set up a store.....

Do we have to choose one or the other?
