Wayne,

I have looked everywhere for a suitable speaker to build as I am new to speaker building. I have built numerous subwoofers and speaker building is completely new to me. I plan on building your speakers exactly how you have designed them if you can send me the plans to the 4pi and 2pi. Thanks for any help you can offer.

Hi Wayne, could i please get the 4pi plans thanks,
i have some 2226h drivers already, if im to order the crossovers, would it be advisable to order the h290's and de250's off you? do you sell those items seperate? could you pm me prices and shipping to australia?
thanks

You've got mail!

We don't sell partial kits or individual drivers, but we do sell crossovers if you want to source your own drivers locally.

You can check prices for the crossovers and all available options on the shopping cart. You can even get a shipping quote - Just place a crossover in the cart and begin the checkout process. It will give you shipping quotes before it asks for payment information.
