What kind of musical instruments can you play and how long have you played them? I can only play the keyboard. I wish I could play guitar, but my hands are super tiny. Even with a girls guitar, my hands do not want to spread out.

My friend is currently teaching me to play guitar. It is a slow process. I guess I am just not naturally talented. I can also play piano, and have been playing since I was ten.

Picked up a guitar back in the late 1980's, but didn't really learn to play it till 5-6 years later. Played in a band for 5-6 years until a job move put an end to having the time. Maybe sometime in the future

I hope you get some free time, Shane, to play music. I think playing music is great for relieving stress and worries. Plus, it is a great way to spend time with friends.

I play the piano. I learned to play a few chords on the guitar as well, but didn't really keep up with it. Your hands will eventually spread a bit, by the way.

I also play the piano, that was my first instrument. In high school I played various woodwind instruments, but I didn't really keep up with that.

I like to mess around on the guitar here and there, but I'm not too proficient. It's something I'd like to work on though. Other than the piano, it's the most fun instrument I've ever tried.
