Does anyone here enjoy satellite radio, in their car? I was so thankful, the day we bought Sirious radio. No more hour long commercials, no crappy song repeats, and I can listen to the stations anywhere. I really love the variety of music, I can go from Bebop, to Blues, and Grunge, all in one sitting. I suggest any music lover to check out satellite radio.

I love satellite radio. I have an XM radio in the car and it's amazing. I love the versatility and the layout of the radios make them great for the car. I have never had a problem with it. My favorite station is Alt Nation.
