I could not believe what I heard this morning ~ it was a radio sale. People were calling in and listing what they had for sale and then giving phone numbers to call. I have not heard these in years (since I was a kid).

I've never heard of a radio sale, but it sounds interesting. That definitely seems like a great way to reach a large audience. I bet internet sites like Craigslist have reduced the demand for something like this, but it would still be cool to hear people describing their items on the air.
