Is anyone here a fan of Bruno Mars? I really like a few songs that he's collaborated on, he seems to have a pretty good voice. I think that the way he's able to work with a variety of artists could make him relevant in pop music for a long time.

I love Bruno Mars! His music is fun and uplifting. He is a much better role model for young men than a lot of other musicians of today are.

Bruno is amazing. I really love his sense of style, and the video with him and the guys with the monkey masks is amazing! He has brought the 80s back!

I am a fan of Bruno too! His voice is like no other - he is easy to pick out when his songs are on the radio. I do have to admit that I wasn't all that impressed with his latest hit - It will Rain. I Love the Lazy song - that is my favorite so far.

I love Bruno Mars and I think that he is a great singer with a great voice. Every song that I've heard from him has so much meaning and emotion. My absolute favorite song from him is "Just The Way You Are."

Hmmm, I don't know about being a good role model since he was caught with drugs a few years back, but his music is pretty nifty. Easy to the ears and very relaxing. xx
