The Houston Audio Society has two club-sponsored events in January:

On Tuesday, January 10th, at 7:00 PM, Mr. Steve Newberry, Music Director and Organist of the Church of St. John the Divine Episcopal will demonstrate and play selections on the 144-rank LeTourneau organ for the enjoyment of Houston Audio Society members.

Our regularly scheduled meeting is on January 14th at the Houston Arboretum & Nature Center, Room C. The subject is a comparison of balanced preamps in the \$2K price range.

HAS members are also invited to Fred and Linda's bodacious, outrageous and contagious 45th anniversary party at the JP Hops House on Saturday, January 21st. We'll have a buffet and live music featuring Willie B and the Silverbacks. Food at seven, music starts at eight. Hear Willie's vintage 6L6 tube amp with Fender Telecaster, plus six other musicians playing keyboard, flute, acoustic guitars, drums, and of course the joy of sax. The Hops House has over 150 brews (27 on tap) including a plethora of fine handcrafted microbrews along with a few flavor-challenged beer-like imitations by Bud, Miller, etc. <http://www.jphopshouse.com/index.html>

See our Yahoo Groups Page for information and directions.

Sounds awesome, Fred! You and Linda really know how to party, and I mean it!
