Beetlejuice was on TV the other day and I watched it for the first time in years.  I forgot how completely corny that movie is!  The overly loud dramatic music cracked me up.

Hi, Yeah, a rather odd movie.  Not on my A list.  Music was funky as well.

I was scared when I watched that movie because I was still very little. Did you know that the original director and original character of Beetlejuice is planning to make sequel about the movie. I'm not enthusiastic about it but I'm interested to know how they will continue the story.

Seriously, a Beetlejuice two? What is the plot line? I loved this movie as a kid, but I really think it should stay in the past.
