I believe The Recent HBO show Game of Thrones' soundtrack is one of the best parts of it. Especially during the intro, the epic score plays as you fly over the map of Game of Thrones fantasy world and immediately you feel as if you're transported into it. What do you guys think about the Game of Thrones soundtrack?

Ha, it's funny.  I was so excited about the storyline (I'm a big fan) that I don't even remember the soundtrack, other than the title sequence, which was pretty cool both musically and visually.
