You can tell a lot about a man by looking at the porn he has hidden in the bathroom. I like speaker porn best. Look in the cabinet and you will find shamefully explicit images of speakers, in full frontal nudity with their grills removed, displaying the wickedly sensuous curves of their softly rounded drivers. Some of my musician friends favor guitar and drum porn, which they fondle lovingly and study as lustfully as I study speaker porn.

Our hidden bathroom porn is the annual Glock report and several issues of Guns & Ammo. Don't get me wrong I like speaker porn too it's just hidden in another location.

Well we have kids, so you can guess that at one point we did have some. Now the only thing we have besides a few gun booklets are those for the pets (which we have too many of), a few speakers and a couple of truck ones.

Throw in a couple of guitar magazines with the speaker and gun porn and I would think I had died and gone to heaven! Now if I could just find more time to read all my "porn".
