We caught The Girl with the Dragon Tattoo the other week on Netflix or Hulu, I forget which but part way through the movie the sounds tweaks. I am hoping it's the movie since we have not noticed it on anything else. And in all fairness it was a pretty good thriller, anyone catch it?

Yes, we rented it from Redbox a couple weekends ago. I thought it was quite good and we may actually buy it. I wonder how the book compares to the movie.

I have yet to see this movie. However, I have heard wonderful things about it & read some pretty good reviews from the critics. We may be renting it this weekend.
