Did you ever record songs from the radio onto a cassette tape? I remember this used to be a lot of fun many years ago. I know that technology has made this outdated, but it's one of the things that always comes to mind when I think of the radio.

Hi, Yeah, I did it all the time. Especially when a station was broadcasting the top 100 for the year. I may even have some of the early tapes around...

Oh, yes! I remember doing this quite a lot "back in the day". I think I may still have some of those old tapes too. I am not sure I have a player anymore though!

Yes, I think I had a go at it once or twice when I was a kid. Although it was more fun to record myself singing my own silly songs via cassette!
