Can you buy Itunes for an Mp3 player that is not an Ipod? I am having a hard time finding places to buy mp3 music from. I tried e-music for a month, but I wasn't really happy with the service or the selection.

Yup. I download from iTunes store all the time and just convert them to mp3's to play on my other setups using iTune player.

Thanks Shane! I wasn't sure how all that worked. Maybe I will get my wife an Itunes gift card then so she can pick out some stuff she likes!
