Subject: Marshall DSL100 Buzz Posted by Alex on Thu, 09 Nov 2006 03:09:43 GMT View Forum Message <> Reply to Message

HiThis probably isn't a biggie, just me worrying about my amp. My amp transformer buzzes when in use and it also comes through the speakers. I know transformers buzz, but i've never heard amp transformers buzz before, even if they're 100W all tube amps... Is this anything to worry about, or is it all good?

Did it just start? If the buzz in the speaker has not changed and nothing seems to be too hot (can you hold your hand on the transformer and count to ten?) If so, then I won't say, "it's all good" but your probably OK...John
