Has anyone heard the new Justin Beiber CD? What did you think about it? I can't believe how much his voice has changed. He sounds a lot older. It was great though. My daughter was rocking out to it. She said she doesn't think his voice is much different.

I don't seek out Justin Beiber's music myself and don't have any children that age to make me hear it despite myself. Perhaps I'll hear his stuff next time I'm at the mall food court.

I don't listen to Bieber, but I'm not surprised his voice is changing. He was past the major voice change when he became big, but he is still an adolescent.

I haven't heard the new CD, but I have heard some of his songs. I am pleasantly surprised and happy that his voice has changed, and I think that is in part why I like the few songs that I have heard so much.

I like his newer music too. It is more mature. My daughter loves him so I am forced to listen often. I think the hidden track "Maria" is a hoot.
