For a long time, I listened mostly to 70's music, but here lately, I've started branching out a bit and listening to 80's music - specifically, 80's hair metal bands. What are some of your favorites?

Man, where do start with that list? Tesla would have to be up there, Motley Crue of course and, I don't know, but does Bon Jovi count as a "hair" band?

Speaking of Bon Jovi, did you see Richie Sambora on Craig Ferguson's Late, Late Show last week?

I love 80's music period! For 80's hair metal Tesla, Poison, Whitesnake, Warrant, and Motley Crue are some of my all time favorites. I love Van Halen too I am just not quite sure they qualify as hair metal.
