Hi, the L1 value is 1.0uF on the 7Pi schematic. I assume it is 1.0mH.
thanks

That's right, it's 1.0mH.

I made that mistake about a million years ago, and someone pointed it out - and I could have sworn I corrected it. Guess not. So I'll do that right now.

But anyway, yeah, it's 1.0mH.
