Amazing. the amp is a half kit from decware. phono pre is a bugle kit from hagtech. \$40 dollar dennon cd player brings the whole thing to around \$700. I was using some klipsch bookshelves previously, but the pi towers blow them away!

Wow! Mind-blowing work. My congratulations.
Can you write a few words about finishing process of these art nouveau cabinets?!

That amp looks sweet. Is the frame of the amp just made from molding ?

Nice work on all the gear you built/assembled. Speakers are top-shelf.
