Which movies are on your list of "must see movies"? We're low on cash at the moment so we've decided that this weekend, we'll have a night "in" instead of a night "out". We want to rent a few movies, eat some cheap popcorn, and have a movie marathon on the couch.

Well, I don't know which of these movies you've already seen, but my suggestions would be the following:

The Godfather Part I
Scarface
Shawshank Redemption
Dances With Wolves

I can think of a few more as well but those four should get you started.

Timron pointed out some good movies, but I've got a few more to add to the list...

Phenomenon
Alcatraz
Lean on Me
Men of Honor
Pearl Harbor
Titanic

Granted, the last one is a bit of a chick flick, but if it gets you in good with the wife, it's worth it right?
