Hi Wayne,

The more I read about the Seven Pi the more I like them. I would love to see the plans if I could.  
Thanks so much!

Best regards,  
Benjamin

Hi Wayne

I'm thinking of changing my 4 Pi's to 7 Pi's as my new workshop has corners available. Could you send me the plans so I can see whether they will fit please?

All the best

David Whistance

Wayne - finally success using a different browser to login!

Could you send me the plans for 7 Pi's please.

I'm presuming I can split the kit components over a couple of shipments to spread the costs?

Does Bongo have a slower / cheaper option for overseas freight (to New Zealand)

Regards - Steven

You've got mail!

You might want to purchase just the waveguides and maybe the (stuffed or unstuffed) crossover boards from us.

If you can source the drivers locally, you can probably save some money on shipping costs.
