Hi Wayne.

Newbie here. I have an 18X36' living room. Two good corners on the 18' side. Corners are 12' tall. Center ridge is 16'. No WAF. I like horns though my HornShoppe Horns get kind of swallowed up. Neighbor across the street has a cabinet shop. Recommendation? 7 Pi ? Please send. Tom

Thanks Wayne.

I got the plans. Now that I can see the "guts" I can start to wrap my arms around the theory. Of course all my best for the work you have done and continue to do.. Tom
