Do you still have all of your cd's? I still have all of ours, but we don't have a way to play them. I don't know what to do with them. There are a lot of memories there!

Good listening

Now don't tell me that CDs are already getting obsolete! I still haven't "converted" all my vinyl albums to CD! My son assures me that a BlueRay player will play music CDs as well as regular DVDs and of course, Blue Ray disks.
