Well, I've gone completely into fall mode. I love this season. We have some little pumpkins decorating the living room and I can't wait for the weather to cool a bit more.

I love fall too. When I lived up north, I had mixed feelings about it since late fall was pretty dreary and cold, but early fall was awesome. Down south, while it's not as cool as I'd like and I miss the leaves changing, I can enjoy fall without worrying about the impending prospect of a cold winter.

Fall is just an all round beautiful season. I really enjoy the changing of the seasons. I lived in southern Texas for a while and the one thing I missed was the changing of the seasons. Shorts and Christmas just done go together for this Midwesterner.
