Is anyone here excited about I, Frankenstein coming out this weekend? I love a good horror movie and the effects on this one look really cool so I might have to see this one. It's going to be too cold to do anything outdoors anyway!

I haven't been keeping up with new movies coming out, so I haven't seen any previews for this. What's it supposed to be about? Is it supposed to be scary horror or suspense horror?

This movie looked a little silly to me. I don't think that it is one that I would pay movie theater prices to see at any rate. I might watch it when it comes out on DVD or Netflix though.
