Hello, all. I am just wondering where some of you found your equipment for a home theater system. I don't have a home theater, but have been wanting to create one in my basement for a while now.

The stuff I have in the bedroom right now came from Circuit City many, many years ago. The stuff in the living room came from Wal-Mart (the TV) and Brandsmart (the receiver, DVD player, speakers, etc.). If I had it to do over again, I'd buy the stuff online piece-by-piece, though. Overall I've been very disappointed in my stereo system.
