I have to say that I have a little more faith in my fellow man after seeing how everyone has come together to help others. I am in Georgia and we still have many stranded motorists and children stuck at school. Someone even created a Facebook page and people with 4 wheel drive vehicles are rescuing people and taking them food, water, gas, blankets, and medication.

Yes, there are many good people out there. Thank God for small miracles, usually those with some kind hand involved, often anonymously.
