Is anyone here taking advantage of Amazon's deal on $5 albums? They had a bunch of them back in January but when I went back to buy a few over the weekend, they didn't have anywhere near as many. I still managed to snag some Three Doors Down, though.

I usually wait to get music until I have a MP3 credit with Amazon or an iTunes gift card. I don't really like to pay money out of pocket for it.

I've bought a few $5 albums from them but not many. It seems like most of their $5 albums are by artists no one has ever heard of!

Is this a sale that they have going on or does Amazon always have albums for $5? Do they rotate which ones cost $5? If it's a sale, how long will it be going on for?

There are always a selection at $5 and under. I've bought dozens, and tend to look on a weekly basis. They do tend to rotate, and I've got a good selection over the last year.
