Wayne,

I noticed that some link to mid horn flat pack brings to a page that says "no such product". Is the flat pack no longer offered or temporarily unavailable?

It's temporarily unavailable. We'll post when they're back in stock.

How much is the horn flat pack kit, again?
How much is it to ship two kits to PA?
When will they be back in stock?

Cheers,
Jeff

They were \$100 each, and I do plan on providing them again. But both me and my cabinet shop are in the middle of moves, so we're not providing flat pack kits at this time. The traditional driver/crossover kits are still available, just no wood products.

When do you expect they will be back in stock?

I am in the process of moving, and intend to find a new cabinet shop. So it will probably be a while. But hopefully by the end of the summer.
