I am so stoked because I was gifted with a new wireless headset to use with my laptop. They make my life so much easier. I can get up and move around while I am listening to music or taking customer calls. I am not locked to my desk. The sound quality is amazing too!

Congrats on the gift, Jackson! What brand were you gifted with? I've been meaning to pick up a pair of wireless headphones for a while now but every time I'm in a store like Best Buy, I get "CD store syndrome" and my mind just goes blank about what I'm in there for!!

I'd love to know the brand as well, I'm looking for a new headset to replace the cheap one at work. I'd like to be able to listen to music with it too. I figure if I buy my own I'll get better quality. How far can you walk away from the charger before it loses the signal?
