Everyday my local country radio station airs an interview at 4:15. I love listening to these. Sometimes they are corny but most of the time they are cool. Anyone else get this lucky?

Our station interviews someone once a week. It is pretty cool. I mostly listen to country music. I like to hear what they have to say. A lot of times they will interview an artist that is coming to town.

Our radio station only interviews if someone big comes to play in the city. Otherwise they don't really do interviews. Just music, news and sports.
