I'm so tired of buying eabuds for the kids that last two or three months if we are lucky before they are ruined. The way they attach the wire to the earbud never stays attached. Are there earbuds out there that can take the constant pulling?

I don't think I've ever seen a set of earbuds that don't break. The way people yank them out of their ears or pockets they don't last long. The only thing you can buy is headphones but most kids don't want to wear headphones (ruins their hair).
