With all the streaming devices how do you choose the best one? Amazon's new $100 Fire TV box, Roku's new streaming stick, Roku 3, Chromecast, PS4 are all good streaming devices but which one is the best?

Have you looked at the BESTBUY website. look under Streaming Media devices and do a compare. This will give you a quick look at the features of each including the price. Roku and Apple have been at this for awhile and have made a long term commitment to maintaining their players.
Again gauge your expectations agains the available products.
