Did any of you hit Lollapalooza this year? I have some friends in Chicago and some of them worked it while others hung out. I was jealous.

No, I didn't go. I don't even know what the lineup was this year. Were there a lot of bands you liked? It's pretty cool that you had friends working it; were they vendors or stagehands?

They are audio engineers. One of them specifically mentioned working the Cage The Elephant show, since he was impressed with them. I don't know how many of the other bands they worked.
