My hubby's birthday is coming up soon and I want to get him something nice. Only problem is, I'm on a tight budget. What would you recommend for \$30 or less?

A movie maybe? Or a music CD?

What does he like? If he likes to read, a book (either print or digital) is often pretty cheap. That's what I get mine when I'm on a budget.

The new Minecraft game is less than \$20 if he likes to play video games. I just bought it and I'm liking it so far. It's a cute little game.

Wayne - Music and/or a movie are both good ideas. I know there are several albums he used to have back in the day that were stolen; if I could find out which ones he misses the most (without it looking too obvious) then I could probably replace one or two of them.

Nymeria - As hard as I've tried to get him to read, he could just care less about books. Thanks for the idea, though!

Timron - That would be a good idea if he didn't already have the game! Thanks, though.
